

# Curriculum Vitae

## Personal Data:

Józef Eugeniusz Sienkiewicz

ul. Gen. Sikorskiego, 83-200 Starogard Gdański, Poland

Born 1954, married, three children.

## Education:

M. Sc. with honors in physics, University of Gdańsk, 1978

Ph. D. in theoretical physics, University of Gdańsk, 1984

Habilitation in theoretical atomic physics

N. Copernicus University of Toruń, 1993

Professorship in physics (theoretical, atomic and computational physics),

N. Copernicus University of Toruń, 2002

## Professional experience:

1984-1993

Adjunkt in Institute of Theoretical Physics and Astrophysics

University of Gdańsk, Gdańsk, Poland

Lecturing on Quantum Mechanics I and Quantum Mechanics II

Research in atomic physics.

February 1, 1986-January 31, 1988 and February 1, 1990-August 31, 1991

Research Associate in Institute of Physics

University of Windsor, Windsor, Canada

Theoretical research in atomic and molecular physics.

1993-1996

Associate Professor in Institute of Theoretical Physics and Astrophysics

University of Gdańsk, Gdańsk, Poland

From 1996

Extraordinary Professor

in Faculty of Applied Physics and Mathematics

Gdańsk University of Technology, Poland

Head of Department of Theoretical Physics and Mathematical Methods

Vice-Dean (1996-1999 and from 2002)

Lecturing on Classical Mechanics, Quantum Mechanics, Computational  
Physics,

Physics for Mathematicians and Numerical Methods.

Research in theoretical atomic, molecular and computational physics.

#### **Research Grants and Fellowships:**

1994-1995, 1996-1999, 2000-2001, 2001-2002 Grants from Polish Committee  
of Scientific Research

1993, 1994, 1996, 1997 European Community Fellowships

to visit for three months every year Mathematical Institute in Oxford

1993, 1992 University of Gdańsk Research Grants.

#### **Honors and Awards:**

1984, 1988, 1992 Scientific Awards from President of Gdańsk University

1997, 1998, 1999 Teaching Awards from President of Gdańsk University  
of Technology.

#### **Memberships:**

Polish Physical Society, European Physical Society.

#### **Cooperation:**

Prof. Dr. William E. Baylis, University of Windsor, Canada

Prof. Dr. Ian P. Grant, University of Oxford, UK

Dr. Stephan Fritzsche, Technical University in Kassel, Germany

Prof. Dr. Franco A. Gianturco, University of Roma, Italy

Dr. Marie-Christine Bacchus, University of Lyon, France
